

Proposal: AI booking receptionist

Prepared for [Practice name] · [Contact name, role] · [Date] · Valid for 30 days

Template notes for M&U (delete this box before sending): yellow fields must be replaced. The yellow [OWNER DECISION ...] fields are open owner decisions: only Usman settles them, so don't reword or delete them. The selected package below defaults to **Essential**; for Professional or Premium, copy that column from Appendix A into sections 2 and 3. Fill in the cover and booking mode (section 2) from your qualification notes before sending. Monthly prices were approved on 28 Sep 2026 (catalogue 2026-09-27); setup fees are not approved, so never add a setup amount. There is no pilot or trial offer. Usman approves before sending. Don't attach the service agreement until it has had qualified legal review.

1. What you told us

[One or two sentences in their words: which calls they want covered (after hours, overflow, or all calls alongside the team), roughly how many a week (their number), where bookings live, which appointment types may be booked by phone.]

2. What we'll set up: Booking Receptionist · Essential

Each business's booking, routing and texts are set up and tested before they go live.

An AI receptionist that answers your [after-hours / busy and no-answer / all calls, where the package includes it] calls on [number], in the cover you choose (Essential includes: after hours, when busy / no answer [OWNER DECISION (a) PENDING: is Essential cover after hours and busy / no answer only, or business hours alongside the team too? Not decided.]). It tells every caller it is an automated assistant and that the call is recorded. At go-live, in Booked mode, it books into a connected Google Calendar or Cal.com calendar, reads back a reference and texts the caller a confirmation if they agree; in Booking request mode it takes a booking request instead. Anything urgent gets the 000 line first, then an urgent message to your team.

What it does	Status
Answers calls in the cover configured for each business; says it is automated and the call is recorded. [OWNER DECISION (a) PENDING: is Essential cover after hours and busy / no answer only, or business hours alongside the team too? Not decided.]	Live today
Takes a structured message and callback request	Live today
Urgent or life-threatening wording gets the 000 line first	Live today
Checks availability and books into a connected Google Calendar or Cal.com calendar, with a reference (a booking request otherwise)	At go-live
Email alert to the practice for each new booking or urgent message	At go-live
SMS booking confirmation with STOP opt-out (caller consent asked on the call)	At go-live
Live transfer to a person	Not included

Live today works on our demonstration line now. **At go-live** is built and switches on when it has passed our acceptance tests; it is switched on for you only at Acceptance (section 6). **Our demonstration line does not book appointments yet**; it takes a message.

Which booking mode you'll get

Direct booking depends on your system: we confirm compatibility during setup, or agree a booking-request / lead workflow. It depends on what you told us about your booking system (section 1), not on your package.

	Booked	Booking request / lead capture
When it applies	You run a connected Google Calendar or Cal.com calendar	We don't book directly into your practice software (e.g. Dentally, Core Practice, D4W) — see the note below
What the caller hears	The receptionist checks availability, books the slot and reads back a reference number	The receptionist takes name, number, reason and preferred time; no reference number, no promised time
What you do	Nothing — it is already in your calendar	You commit to confirming each request from the dashboard, for example by the next business morning (your commitment, set in section 7)

Dentally publishes a public developer API ([developer.dentally.co], checked 27 Sep 2026) that could support direct booking later. We have not built that integration; this is not offered today.

Your mode for this proposal: **[Booked / Booking request]**.

Included

- 1 Australian mobile number for your receptionist line; 1 connected Google Calendar or Cal.com calendar; 1 location.
- Cover modes: After hours, When busy / no answer. **[OWNER DECISION (a) PENDING: is Essential cover after hours and busy / no answer only, or business hours alongside the team too? Not decided.]**
- SMS: Booking confirmation (at go-live), with STOP opt-out.
- Reports: Monthly usage summary: minutes used, remaining and overage.
- Support: Mon–Fri 9:00am–5:00pm Sydney time, excluding NSW public holidays. First response: next business day. Setup review after the first 2 weeks.

Not included

- Live transfer to a person (it isn't offered; the receptionist takes a message instead).
- Integration with practice-management software (for example Dentally, Core Practice, Cliniko). Bookings go into the connected calendar and your team copies them across if needed.
- Clinical, legal or financial advice, or assessment of urgency. It is not an emergency service.
- Outbound or marketing calls or messages.

3. Price

Prices are in Australian dollars and exclude GST. M&U Ventures is registered for GST, so 10% GST is added to every invoice. Monthly prices approved 28 Sep 2026. Setup: quoted separately once approved.

Item	Ex GST	Incl. 10% GST
Monthly fee (starts at Acceptance; timing below)	A\$699	A\$768.90
Included minutes each month	400	—
Extra minutes (billed in arrears)	A\$0.80/min	A\$0.88/min
Included SMS segments each month	200	—
Extra SMS segments	A\$0.15/segment	A\$0.17/segment
Minimum term (starts at Acceptance)	3 months	—
Notice after the minimum term	30 days	—
Setup	Quoted separately once approved	—

How minutes are counted: by the second, added up over the billing month and rounded up to the next whole minute once. Calls under 5 seconds, calls that never reach the receptionist, and our own test calls are not counted. Included minutes and SMS reset each month and

do not roll over. Extra minutes and SMS are billed in arrears. [OWNER DECISION (b) PENDING: is the monthly fee billed in advance from Acceptance, or in arrears after each billing period? Not decided.] Billing terms are confirmed in your agreement.

Invoice example

Line	Ex GST
Professional monthly fee (1,000 minutes included)	A\$1,099.00
Extra minutes: 200 × A\$0.75	A\$150.00
Subtotal, ex GST	A\$1,249.00
GST (10%)	A\$124.90
Total, incl. GST	A\$1,373.90

Example only: Professional with 1,200 billable minutes in one month. No setup line.

4. Terms

Monthly billing and your minimum term start at Acceptance (section 6), once your own line has passed its go-live tests and you have confirmed them in writing. [OWNER DECISION (b) PENDING: is the monthly fee billed in advance from Acceptance, or in arrears after each billing period? Not decided.] Billing terms are confirmed in your agreement. You can switch call forwarding off at any time and your phones work exactly as they do today. The service agreement sets out the full terms.

5. Timeline

Step	What happens	Typical timing
Start	Proposal accepted and agreement signed	[date]
Kickoff	45-minute call: hours, services and appointment lengths, what may be booked by phone, urgent wording, alert contacts	Day 1
Access	You grant calendar access from your own account and complete the setup checklist (no passwords or patient details)	Days 1–3
Build	We configure the receptionist, knowledge summary, disclosures and SMS wording; you update your privacy policy with our suggested wording	Days 2–5
Forwarding	You switch on call forwarding in the agreed cover so we can test it; until Acceptance your line only takes messages	Day 5
Test	Five scripted test calls together: a booking (or booking request), an urgent-wording call, calls through your cover and forwarding, and a text if SMS is set up	Days 5–7
Acceptance	The go-live tests pass and you confirm them in writing (section 6). Monthly billing and the minimum term start	Day 7
Go-live	Booking, alerts and texts (as configured) switch on for your callers; forwarding stays on in the agreed cover	Day 7
Settle in	Setup review after the first 2 weeks (what Essential includes; daily review of flagged calls is Premium hypercare only)	Days 7–30

Timings start once booking has passed acceptance testing on our demonstration line and we have your calendar access and answers. We will confirm your start date in writing.

6. Acceptance

Acceptance happens when the go-live tests pass on your own configuration and you confirm them in writing (email is fine). The tests: a test booking appears correctly in your connected calendar (in Booking request mode:

a complete booking request is received); an urgent-wording test call gives the 000 line first; test calls reach the receptionist through your configured cover and call forwarding; and, when SMS is configured, a test text is delivered with the opt-out wording. The booking test checks the correct time and details; a booking request must include name, number, reason and preferred time.

7. Assumptions

- If your mode is Booked: you use, or will create, a Google Calendar or Cal.com calendar containing the slots the receptionist may book. If your mode is Booking request / lead capture: your desk commits to checking and confirming requests [each business morning / other agreed time]; the receptionist doesn't confirm them for you.
- You can change call forwarding with your phone provider (we send the codes; your number never changes), and keep your existing voicemail as a fallback.
- Your privacy policy will mention the AI receptionist, call recording and our overseas service providers before go-live (we supply wording).
- Call audio and transcripts are processed by our service providers, including in the United States. Details are in the service agreement.
- Usage estimate: about [N] calls a month of about [2–3] minutes. If usage is regularly above the included minutes we will suggest the right package before extra minutes add up.
- No guarantee of a particular number of bookings, patients or revenue.

8. Accept this proposal

	For [Practice name]	For M&U Ventures
Name	[name]	[authorised signatory]
Role	[role]	[role]
Signature		
Date		

Signing this proposal confirms the package and price. The service is provided under the M&U Ventures service agreement, signed separately.

Appendix A: all packages (approved monthly plans, ex GST, + 10% GST)

	Essential	Professional	Premium
Monthly, ex GST	A\$699	A\$1,099	A\$1,999
Monthly, incl. 10% GST	A\$768.90	A\$1,208.90	A\$2,198.90
Included minutes	400	1,000	1,800
Extra minutes	A\$0.80/min	A\$0.75/min	A\$0.70/min
Included SMS segments	200	600	1,200
Cover modes	After hours; When busy / no answer [OWNER DECISION (a) PENDING: is Essential cover after hours and busy / no answer only, or business hours alongside the team too? Not decided.]	After hours; When busy / no answer; All calls	After hours; When busy / no answer; All calls
Calendars / locations / numbers	1 / 1 / 1	3 / 1 / 1	10 / 3 / 3
First response (business hours)	Next business day	Same business day (within 4 business hours)	Within 2 business hours
Minimum term	3 months	3 months	6 months

Every package includes the same live and at-go-live receptionist features, with reminders and the weekly proof report from Professional up, and weekly M&U call review in Premium. Live transfer and practice-software integration are not included in any package. Setup: quoted separately once approved. Source: M&U package catalogue 2026-09-27, approved 28 Sep 2026; built 28 September 2026.
